Mobile And Flexible

DP-530/541

Mobile printing in the vehicle or on the move.

The DP-530/541 printers are thermal printer for receipts and labels. The rugged mobile printers are fixed into vehicles or on commission cars and enable simple and efficient work. Their domestic application areas are in logistics or in route accounting. The DP printers can also be carried along. A simple operation and low weight allow the user almost to forget that he carries a printer. Thanks to various interfaces (Bluetooth and Wi-Fi), the printer can be easily connect to a variety of systems.

DP-581

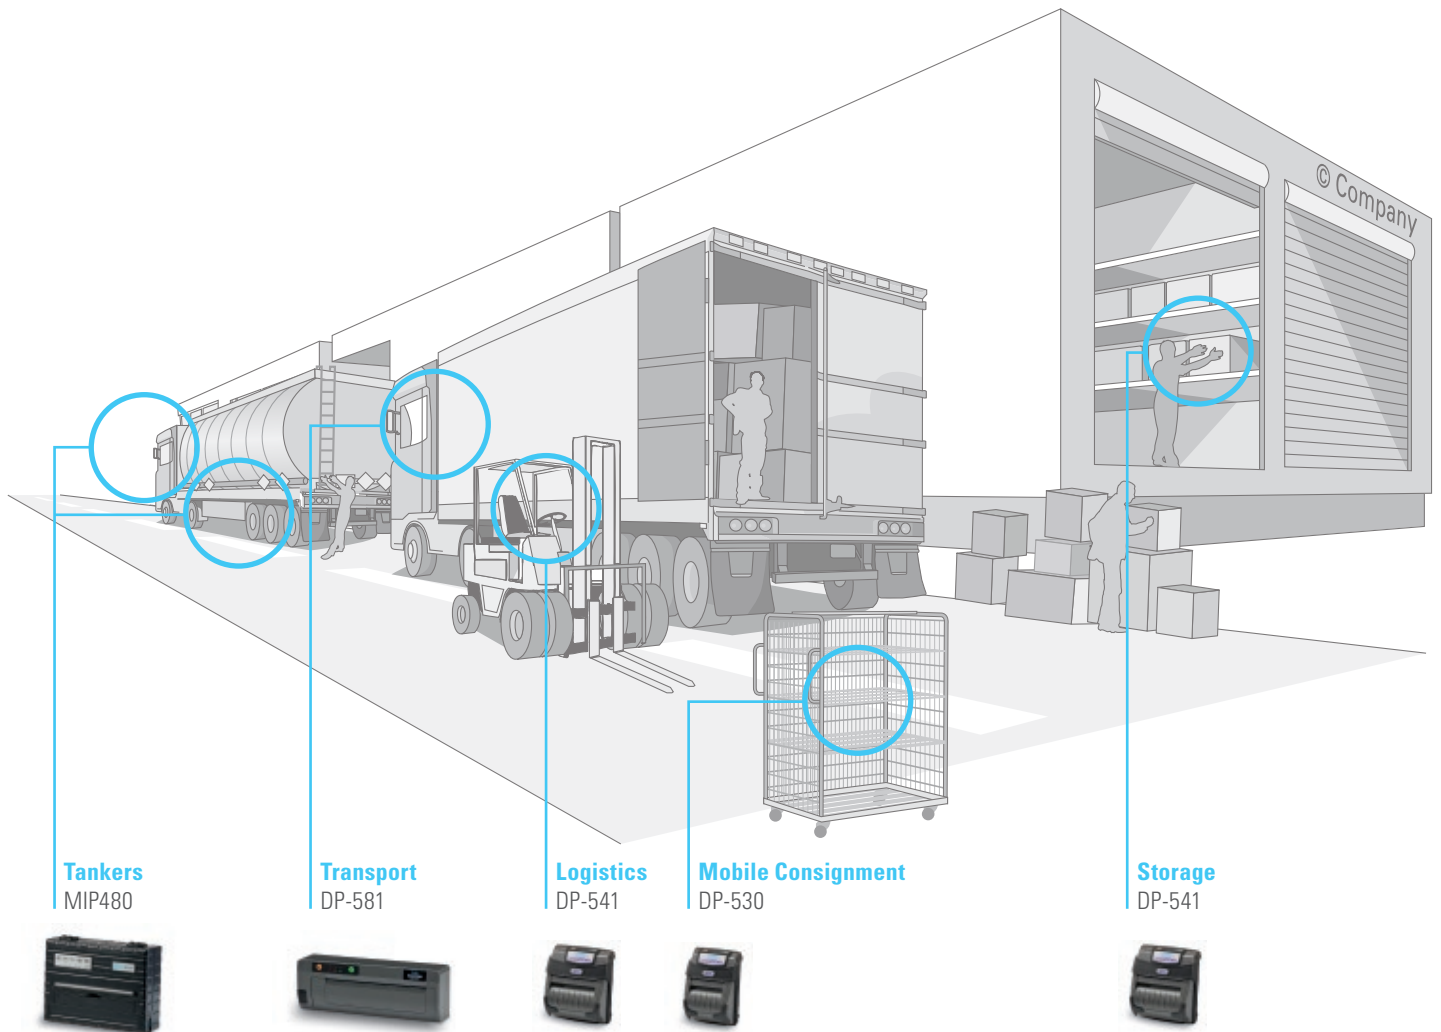

Fullpage thermal printer with high print quality.

The DP-581 is a thermal printer for A4 formats. With its crisp print quality it's the perfect choice for forms, documents and graphics like invoices and medical reports. In addition to the print quality the Tally Dascom DP-580 features high print speed and operates quietly. The compact rugged design and versatile interfaces (Bluetooth, WiFi and USB) enable flexible and mobile working. This printer in its vehicle mounted form is ideal for police, ambulance, fire trucks, delivery trucks. The battery operated version is a transportable companion for those users where larger print format is a must like the insurance and utilities technical representatives.

MIP480

Vehicle printer for multiple forms.

The MIP480 is a dot matrix printer, which has been specially developed for mobile application printing used on handhelds and laptops. It combines speed, flexibility and robustness, thus providing an ideal output device for transport documents and other mobile applications. The MIP480 is ideal for industrial uses in transportation of hazardous materials, liquids or food. In addition, it is also an interesting alternative for prints in warehouse logistics. Undelivered goods can be accurately detected and multiple forms allow that the driver and receiver receive a proof of actual delivery.

Printing Wherever You Are

	Technology	Print Speed	Resolution	Emulations	Interfaces	Printing width	Power supply	Battery operation	
DP-530 , DP-530L	Direct thermal	max. 127 mm/s 5 ips	203 dpi	ESC/POS, EPL, ZPL, O'Neil, PostScript, Printek	USB, opt. Bluetooth or WiFi	max. 72 mm	12/24 V or 220 V	yes	
DP-541	Direct thermal	max. 127 mm/s 5 ips	203 dpi	ESC/POS, EPL, ZPL, O'Neil, PostScript, Printek	USB, opt. Bluetooth or WiFi	max. 104 mm	12/24 V or 220 V	yes	
DP-581	Direct thermal	max. 50 mm/s 2 ips	203 dpi	ESC/POS, EPL, ZPL, O'Neil, PostScript, Printek	USB, opt. Bluetooth or WiFi	max. 210 mm	12/24 V or 220 V	optional	
MIP480	24 wires, (1 + 3 copies)	max. 600 cps	360 x 360 dpi	IBM, Epson, Intermec	USB, parallel, serial, Bluetooth	max. 255 mm	12/24 V or 220 V	no	

Advantage of mobile printers

Mobile printers by DASCOC offer a superior solution for many vehicle-related tasks. They enable the printing of wide-format sheets, which are necessary for delivery notes and transport documents. Multiple copies allow signature as a proof of receiving the goods. Our printers are not affected by the constant vehicle vibrations or rough environmental conditions and guarantee years of smooth operation

Examples of operable industries

- Hazardous Materials
- Tank Lorries
- Liquefied Gas
- Beverage Logistics
- Mobile Consignment
- Ambulance
- Police Vehicles
- Traffic Wardens

ABOUT DASCOM

The DASCOM group was founded 1988 and is established in Hong Kong. As of today, DASCOM is a private conglomerate operating an array of business focuses. Located in Ulm (Germany), DASCOM Europe GmbH is the European headquarters and was founded in May 2009. We market the full range of serial, passbook, mobile and thermal printers under the "Tally" or "Tally Dascom" brand names.

DOT MATRIX PRINTERS

You may have thought dot matrix printers had had their day. Not so. In fact a growing number of organisations are returning to dot matrix printers, largely because of the cost benefits as well as robustness and reliability. DASCOM's range of dot matrix printers are well matched with Microsoft Windows applications, and highly compatible with other host operation environments including legacy systems such as Unix, IBM Mainframe and AS400 (iSeries), SAP and even the many MS-DOS applications still being used.

FLATBED PRINTERS

Flatbed printers are built for task critical situations, ideal for front office applications in retail outlets, travel agents, train stations, banks and doctor's surgeries where space is limited. They can be used for printing multi-part forms like invoices and delivery notes or cut sheet applications like printing receipts, prescriptions and documents - The Tally Dascom Flatbed printers keep transactions smooth and you will always get excellent results.

MOBILE PRINTERS

Printing requirements now extend beyond the warehouse and office into the delivery vehicles themselves. The need to print a delivery note or invoice at the same time as delivering your goods – complete with your company's sales and marketing message of the day – is fast becoming the norm. DASCOM's MIP480 provides wide format printing output. Multi copy provides for signatures as proof of receipt of goods. DASCOM mobile devices rigorously withstand the constant abuse of road vibration and environmental conditions guaranteeing years of trouble-free operation.

THERMAL PRINTERS

Of course, we're already well known for our extensive range of business-class printers. Now you can enjoy this same level of excellence with our range of thermal printers. Which is great news, because thermal comes into its own in so many sectors, and for so many applications. From shelf edge labelling in retail, to specimen tracking and prescription printing in healthcare, and labelling in the manufacturing, transportation, airline, chemical and pharmaceutical industries, thermal printing makes perfect sense.
